

ANSWERS TAFT'S
BOSTON SPEECHPRESIDENTIAL PRIMARY
THE QUESTION.Roosevelt Contends Question Will be
Adopted in Various States if Presi-
dent Taft and His Followers Will
Support the Plan.New York, March 19.—Col. Roose-
velt today issued a statement in
which he discussed President Taft's
speech in Boston yesterday."President Taft is reported as say-
ing at Boston yesterday," Col. Roose-
velt says, "that the voluntary pri-
mary power, as he calls it—the soap
box primary—that is, a method
adopted by the people as the only
way in which to express their wishes
when their legislatures deny them
any other opportunity to do so, is
worse than nothing. But the presi-
dent continued to say that he favored
a preferential primary for the
presidency."Mr. Roosevelt expresses pleasure
that the president has taken this
stand and says that if Mr. Taft's
campaign managers will sincerely
back him in the proposition, Michi-
gan, Illinois, Maryland, District of
Columbia and New York will pass
presidential primary laws.Col. Roosevelt reviews efforts of
his managers to secure the passage of
a preferential primary law in Massachu-
setts and their correspondence
with the president and Congressman
McKinley, Taft's manager, to enlist
them in the fight in favor of the
measure. But the efforts to bring the
Taft supporters into line, according
to Mr. Roosevelt, were in vain."However," says Roosevelt, "pub-
lic opinion was aroused, and the bill
went through, and I am exceedingly
glad that the president—now nearly
a week after the bill has become a
law—should say as he does, favors
it and welcomes it.""But I earnestly hope that the
president and his supporters will in
other states support such legislation
before it passes and not after it
passes."Col. Roosevelt calls attention to
primary bills now proposed in Mary-
land, Michigan, New York, Ohio and
Illinois, points out that his support-
ers favor these measures, but which
he intimates the president's man-
agers do not seem inclined to assist
in putting through the legislatures.Of the Illinois situation, Col. Roose-
velt says:
"Governor Deneen has stated pub-
licly that he will convene the legis-
lature in special session to pass a
presidential preference primary bill
in case the necessary two-thirds of
the members will agree before hand
to adopt a measure. The leaders of
the presidential party in Illinois, in-
cluding Congressman McKinley, the
director of the national Taft bureau,
to whom the president's secretary re-
ferred the request for help in getting
the Massachusetts primary bill
through, are using every possible ef-
fort to prevent the agreement in
question. If the Taft leaders in
Illinois, who include the leader of
the national campaign committee,
which is conducting the president's
cavanss for re-nomination, will now
act in good faith in accordance with
the president's speech approving the
bill that has already been passed in
the Massachusetts legislature, they
can secure a similar bill in the legis-
lature of Illinois."Col. Roosevelt discussed recent oc-
currences in Oklahoma, where he al-
leges a minority backed by federal
office holders secured control of a
district convention and elected Taft
delegates."Then," Roosevelt says, "a pri-
mary for the state convention was
held and that identical district gave
a two to one vote against the presi-
dent.""What has occurred in Oklahoma,"
declares Roosevelt, "indicates the
need of presidential primaries and
shows how the patronage is at this
moment being used to defeat the will
of the people."

PRICE OF WEDDING FEAST.

Wife Must Return Sum to Man She
Turns Down.Chicago, March 19.—Mrs. Henry
Goulbino must repay John Blusis
\$80 he gave her, with which to pur-
chase a wedding feast when they
were to be married two years ago,
Municipal Judge Dolan decided to-
day.Their's was a case of love at first
sight, Blusis told the court. He
thought it proper that they have a
feast, so he handed her \$80. Then
Blusis went to St. Charles, Ill., to tell
his relatives about his approaching
marriage, and while he was there
he got this letter:"I've changed my mind. I don't
think we could be happy together. I
have given the \$80 to my brother,
who will turn it over to you. Good
bye."Blusis never received the \$80; he
brought suit.Mrs. Goulbino said her brother
must have squandered the money.

ADHERE TO DEMANDS.

Cleveland, Ohio, March 19.—Oper-
ators of the bituminous coal mines
of the bituminous coal mines of
Pennsylvania, Ohio, Indiana and Illi-
nois will adhere to the demand for a
reduction in the wages paid their
mine workers. Recently the govern-
ment of their attitude was made late

two operators, eight from each of
the states named.PENSIONS FOR
INSTRUCTORSWILL BE TAKEN CARE OF IN
THEIR OLD AGE.University of Chicago Now Has an
Endowment of \$2,000,000—Will
Receive Fifty-five Per Cent of
Their Average Salary Upon Re-
tirement.Chicago, March 19.—University
of Chicago faculty members and
their widows are to be the benefi-
ciaries of the pension system with an
endowment of \$2,000,000, President
Harry Pratt Judson announced today.
Between 150 and 200 of the faculty,
which now numbers 350, will be
eligible to pensions. They will range
from \$1,000 to \$3,000 a year.Any person in the service of the
university who has reached the age
of 65 years and has been in the ser-
vice of the school at least 15 years, in
a rank not lower than assistant pro-
fessor, may retire from active ser-
vice, or be retired by the trustees on
an annual allowance to be computed
as follows:Forty per cent of the average salary
received during the five years
immediately preceding the time of
retirement, for each year of service
beyond fifteen years, two per cent
of such average salary, but no al-
lowance to exceed 60 per cent of the
average salary, or shall it exceed
\$3,000.The widow of any person receiv-
ing or eligible to receive a pension
at the time of his death shall be en-
titled to one-half of his allowance
during her life.The \$2,000,000 necessary to carry
out the pension system will be ob-
tained by setting aside \$200,000 each
year for ten years from the income
derived from the latest endowment
of \$10,000,000 by John D. Rockefeller.
It is estimated that the pen-
sions will amount to \$100,000 a
year.The present salary scale of persons
who will be eligible to pensions fol-
lows:Heads of departments, \$4,500 to
\$6,000.

Professors, \$2,000 to \$4,500.

Associate professors, \$2,500 to \$3-
000, and assistant professors \$2,000
and on re-appointment after four
years service, \$500.

TRIBUTE TO BRYAN

Banquet Given Peerless Leader in
Honor of His Fifty-second Birth-
day by Prominent Democrats.Lincoln, Neb., March 19.—Represen-
tative Democrats of the state and
nation who declare allegiance to the
progressive wing of the party con-
ferred in Lincoln today on questions
of party policy and tonight paid trib-
ute to William J. Bryan at a banquet
given in his honor on the occasion
of his fifty-second birthday. With
all the significance of what promises
to be a strenuous presidential cam-
paign bearing down upon them and
with members of the party over the
country waiting to hear an expression
from Mr. Bryan on the question of
presidential preference, the function
of tonight took on more than the
usual significance.The set speeches of the evening de-
livered in turn by former Senator
Pettigrew of South Dakota, Senator
Gore of Oklahoma, George Fred
Williams of Massachusetts, Frederick
Townsend Martin of New York, Con-
gressman Henry of Texas, Senator
elect James of Kentucky and Mr.
Bryan, avoid as much the personal
preferences of the speakers, but out-
side the banquet hall the speakers
were less reserved.George Fred Williams was out-
spoken in his opposition to Governor
Woodrow Wilson, together with
former Senator Pettigrew, just as
Senator Gore was a hearty champion
of the New Jersey governor, along
with Congressman James and Henry.Mr. Bryan was the last speaker
and his remarks were brief and along
general lines. He disappointed the
crowd when he failed to announce
his personal preference for president,
but was given applause when he de-
clared of all the men mentioned for
the office none would suit him better
than Senator-elect Ollie James. He
brought a laugh when, referring to
President Taft and Col. Roosevelt,
he said he had never expected to see
the day when the principal and his
counsel appeared as opposing litig-
ants in a court, nor when two such
eminent political opponents were
working for the common Democratic
good.

FIRE AT SIOUX CITY.

Sioux City, Ia., March 19.—Fire
tonight caused by the burning out
of electric fuse wire, destroyed the
Lind Home Furniture company, a
four story brick building at the cor-
ner of Fifth and Douglas streets,
causing a loss of \$155,000. The
Sioux City Journal was slightly dam-
aged by water.

ENDORSE PRESIDENT TAFT.

Columbus, O., March 19.—Repub-
lican county executive committee
chairmen of the state at a meeting
here today adopted a resolution en-
dorsing President Taft and renewing
the pledge of the state convention of
1910, pledging Ohio's support to the
president.

NO SPECIAL SESSIONS.

Chicago, March 19.—Governor
Deneen announced tonight he would
not call a special session of the state
legislature to enact a preferential
primary law. Recently the governor
announced he would call a special
session, if two-thirds of the rep-
resentatives would sign a petition
to him to take such action.STANDS FOR A
SQUARE DEALTHAT IS WHAT TAFT'S ADMIN-
ISTRATION WANTSPresident Gives Utterance To This
Sentence On Steps of New Hamp-
shire State House—States His
Attitude on Various Important
Questions.Boston, March 19.—"All that the
administration wants is a square
deal," said President Taft, speaking
to day from the steps of the Con-
cord, N. H., state house, near the
close of his two days New England
visit.During his stay in Boston and in
New Hampshire, the president spoke
to twenty audiences, stating definite-
ly his attitude on the tariff, his rea-
sons for opposing the recall of judges
and decisions, and his continued
hope of ultimate arbitration.His speechmaking activities to day
took him to Nassau, Manchester and
Concord. Some of his most emphatic
remarks on "progressive" mea-
sures were delivered from the portico
of the granite state capitol with
Governor Robert P. Bass, one of Col.
Roosevelt's most ardent supporters,
as a respectful listener. The presi-
dent of Southern New Hampshire,
seemed eager to see and hear the
president.Railroad square in Nassau was
well filled with mill hands of many
nationalities. After leaving Man-
chester, he passed through two lines
half a mile long of school children,
waving flags.Governor Bass greeted him in
Concord and escorted him through
the state house."Progressive is that progressive
does," was one epigram the president
gave his hearers. He also gave a
concise outline of his idea of the
adoption of the principle of the re-
call of judges and of decisions."Adopt such measures," he said,
"and you will have a government of
special instances. You would have a
constitution that is to be applied at
one time and not applied at another
Time, my friends, is nothing but a
government of special instances,
that has not the uniformity of law
and constitution, and is the most
tyrannical form of government we
have. This form of government we
can have.""This question of a change in the
judiciary of this country means we
may recall judges that we do not like
if they happen to decide against us,
or if they happen to decide a ques-
tion one way we may submit it to
a popular election to decide whether
the court decided it right or wrong.
I am in favor of the people, but I
do not think the people are charged
with knowledge of the law as the
supreme court of New Jersey or as
the supreme court of the United
States.""I believe in popular government,
but I believe in popular order by
constitution and by law.""The people who vote are only
one fourth of the people, and they
are in that sense representative of
the people, and if we are going to
trust that quarter with power over
all the people, then they have to be
limited by constitutional restriction.
And they are limited by consti-
tutional restriction under our con-
stitution. When the question is to
be decided whether they have trans-
gressed those restrictions, we have
to have somebody independent of
them and independent of every body
And that is the necessity for an in-
dependent judiciary.""You give an independent judi-
ciary and you might as well give
up your constitution. I know en-
ough about the common sense of the
American people to know they will
never give up the constitution, and
they are not going to be honey-
trapped if by help told that they are
fit to interpret nice questions of
constitutional law just as well or
better than judges. The American
people are a great people because
they can stand having the truth
told to them about themselves with-
out turning mad about it and with-
out turning on the man who tells
the truth."

DEMOCRATIC PLATFORM.

Principal Policies Outlined by Maine
Citizens in Convention.Augusta, Me., March 19.—Local
option for cities and towns, a \$2-
000,000 bond issue for good country
roads; a public utilities commission
and adequate employers' liability
legislation were the principal policies
outlined in the platform adopted by
the Democrats of Maine at the biennial
state convention to day.The twelve delegates to the na-
tional convention in Baltimore will
go not only unpledged but without
an expression of preference from the
convention. A Wilson resolution was
submitted to the committee on resolu-
tions, but was not accepted. By
agreement of the convention no del-
egates at large were chosen. The dis-
tricts each naming three delegates
instead of two, thus making up the
state's full quota of twelve.The convention also nominated six
candidates for the electoral college.

WITNESSED A FIGHT

Governor Deneen Sat in Auto While

Rival Politicians Pummel Each

Other.

Chicago, March 19.—Governor

Deneen sat in an automobile to night

and saw a fight between Joseph R.

Burres, candidate for state attor-

ney, with whom he had gone cam-

paigning, and Solomon Von Praag,

who is opposed politically to Burres.

Burres and Van Praag met in a

cigar store, outside of which the gov-

ernor was seated in an automobile.

The men passed a few heated re-

marks and then Van Praag rushed at

Burres, who slapped his opponent

with a back of his hand. Again Van

Praag rushed and that time the say

was knocked down by an other

slap. Burres immediately joined

the governor and there was no

further trouble.

TRAINED TO CHICAGO.

Chicago, March 19.—Samuel A.

Holler, who is charged with having

participated in the lynching of De-

tective Carl Ethington at Newark, O.,

July 8, 1910, was arrested here to-

day. Detectives from Newark trail-

ed Holler to Chicago. The lynching

of Ethington was the outcome of a

"wet" and "dry" fight in Licking

county, Ohio. Ethington was in-

strumental in closing illegal saloons.

WILSON AND WILEY.

May be Pure Democracy and Pure

Food.

Washington, March 19.—Dr. Har-

vey W. Wiley, until recently the

government's pure food champion,

was brought out as a Democratic vice

presidential possibility today by the

Woodrow Wilson headquarters.

Wilson and Wiley is the ticket

proposed by Representative Burton

of Texas, chairman of the house

Democratic caucus, according to the

announcement at the Wilson offices.

"It represents pure Democracy and

pure food," is the quotation attrib-

uted to Mr. Burleson.

KILLED HIS BROTHER.

Bloomington, Ill., March 19.—

George H. Baker, aged 15, was ac-

cidentally shot dead by his brother

Albert this morning at their home

southwest of Saunemin, in Living-

stone county. The slayer jokingly

told his brother that unless he got

out of bed at once he would shoot

him, at the same time picking up a

shotgun. The weapon was discharged

and the boy died instantly in bed.

CHICAGO TRAGEDY.

Chicago, March 19.—William Til-

son shot and killed Harry Adler to

night because he thought Adler had

caused his arrest recently on a

charge of disorderly conduct. Adler

was accompanied by two of his

brothers when he was shot. Tilson

had his revolver pointed at the back

of one of the brothers, evidently

thinking he was Harry Adler, when

the latter turned and Tilson

quickly trained his revolver on Adler

and fired. Police are searching for

the slayer.

men. The robbers escaped in the

dense underbrush of the Tusculum

river bottoms.

ARGUMENT MADE
FOR DEFENDANTSCLAIM MADE PUBLIC NOT IN-
JURED BY PACKERS.Produce Statistics From Government
Showing Indicted Men Sold Less
Than One Third of Fresh Meat
Consumed in This Country.Chicago, March 19.—Citing the de-
cision of the United States supreme
court in the Standard Oil case to
show that violation of the Sherman
law necessarily involves unreason-
able restraint of trade and injury to
the public and asserting the govern-
ment has set up no such charge
against the packers, Attorney Geo.
T. Buckingham representing the
State group of defendants to day
delivered the opening address of coun-
sel for the defense to the jury.He declared the government had
made no effort to show an element
of injury to the public in the case
or that the packers profits were ex-
orbitant as a result of technical vi-
olation of the Sherman law charged
against the defendants.The net earnings of the packers
he said was 8 per cent on their in-
vestment and the profit on fresh
meat did not exceed one tenth of one
per cent a pound. He quoted sta-
tistics compiled by the government
in support of his statement that the
indicted packers sold less than one
third of the fresh meat consumed in
the country and said it would be a
physical impossibility for them to
control the industry even if they
so desired.Attorney Buckingham in closing
declared the government had failed
to prove its case and urged the jury
to acquit the ten defendants.Attorney John S. Miller, represent-
ing the Armour group of defendants
began his address shortly before the
adjournment of court and will be
concluded tomorrow morning.He will be followed by District
Attorney James H. Wilkerson for
the government.Special Counsel Pierce Butler will
close the governments case. It is
expected the case will be given
the jury Saturday morning.

16TH ANNIVERSARY

Ladies' Aid Society of Murrayville
M. E. Church Holds Bazaar on
Occasion—Have Promised \$1,000
on New Church.

Tuesday was a Red Letter day in the history of the Ladies' Aid society of the Methodist church of Murrayville, the occasion being the sixteenth anniversary of the organization. It has been the custom of the society for several years to honor the day and this year a bazaar and luncheon was served, which was held in Carlson's hall. For several weeks the ladies have been busy sewing on fancy articles and other wearing apparel. This they donate to the society and the articles are sold to patrons of the bazaar.

A good crowd was in attendance and across the front of the hall was a large banner with a green background bearing the letters "Sweet Sixteen," the letters being in pink. These are the colors of the society. Sandwiches, coffee, pickles, pies, ice cream and cake were on sale and the many attractive articles in the bazaar department found ready purchasers. The chairman of the bazaar was Mrs. Susan Carlson and of the lunch, Miss Emma Rimbe.

The society was organized sixteen years ago, with only eleven members, and today they have an enrollment of eighty-five members, and the organization has been one of the valuable assets of the church. The eleven charter members follow: Mrs. Lora M. Angelo, Mrs. W. D. Wright, Mrs. J. A. Carlson, Mrs. Augusta Israel, Mrs. James Israel, Mrs. William Israel, Mrs. Lennie Smith, Mrs. Martha Rousey, Mrs. George Ealey, Mrs. Abraham Wade, Mrs. C. F. Strang.

The following are the present officers of the society:
President—Mrs. Lora M. Angelo.
First vice-president—Mrs. Susan Carlson.

Second vice-president—Mrs. Sarah Wade.
Secretary—Mrs. Nettie E. Millon.
Treasurer—Mrs. Mary E. Kennedy.

In connection with the bazaar a musical program was given as follows:

Instrumental solos—Miss Mildred Wright, Miss Edna Osborne, Willard Wesner.
Vocal solos—Mrs. W. D. Rousey, Miss Beulah Kether.

Vocal selection, "Four Short Rids"—Floreta, Lucille, Margaret, Isabel and Master Floyd.
The ladies cleared over \$50 and the day was enjoyed in every way. The society has promised \$1,000 on the new M. E. church and they have many things planned during the coming months to raise the promised sum.

HAY PRICES HIGH.
Hay is gold nowadays. A Journal reporter was shown yesterday quotation from Oklahoma of best prairie hay delivered at the station in Jacksonville \$20 a ton, best, \$18.50, second quality, and \$16.50 third quality.

PALESTINE BIBLE CLASS.
The Palestine Bible class of Grace M. E. church will meet Thursday night at the home of Dr. F. L. Griswold on West State street.

WOODMAN GOES TO DUBUQUE.

Walter Woodman of this city, who is groundskeeper for the management of the baseball park at Dubuque has gone to that city to again take up his work. The Times-Journal of Dubuque has the following appreciative notice about Mr. Woodman:

"Walter Woodman, of Jacksonville, Ill., who kept the Dubuque Three-I baseball park in perfect condition last season, has notified Manager Rowland that he will be on the job again this summer.

"Woodman is one of the best ground-keepers in the country. Rowland said Wednesday. He always has the diamond in the best possible shape and there is never any hay in the outfield when he is on the job."

Fans all seem to corroborate Rowland's testimony as to Woodman's ability, as the local diamond was easily the best in the Three-I league last season. The "bugs" used to delight in watching Woodman "clean up" after the first game of a double-header and all of them will no doubt be as pleased to hear that the Jacksonville man is coming back as Rowland appears to be.

Attend Mrs. Stallings' millinery opening to day; East State street.

WOODSON REVIVAL.

Evangelist Hougham preached to another splendid audience last night at the Christian church. He took for his subject "Voices From Beyond the Grave," basing his remarks on the story found in Luke, 16, 19-31, of Lazarus and the Rich Man. The evangelist gave a splendid discourse, which was heard with close attention. The music was in charge of Dr. R. B. Jones, the regular choir leader not being able to attend.

This evening the sermon will be based on the 8th chapter of Acts. Several candidates will be baptized at this service.

Everybody welcome at Hermans Grand Easter Opening to day. Music all day and evening.

JOY PRAIRIE ELEVATOR CO.

The farmers who are interested in the formation of the Joy Prairie Elevator company met Tuesday and further plans were laid looking toward a permanent organization. Some committees were appointed and another meeting will be held next Monday afternoon and it is possible at that time an election of officers can be held and the company will be ready to apply for a charter. The company will incorporate for \$6,000 and the shares will sell for \$100 each.

To day will be a great day in our millinery department. Most every new spring style hat is on display. Don't fail to see them. Blackburn-Floeth Co.

R. G. Collins, postmaster, Barnegat, N. J., was troubled with a severe laryngeal cough. He says: "I would be completely exhausted after each fit of violent coughing. I bought a bottle of Foley's Honey and Art Compound and before I had taken it all the coughing spells had entirely ceased. It can't be beat."

Delft Peanut Salad Oil

Extracted from the first pressing is used for Delft Peanut Oil. The oil extracted from further pressure is not considered suitable for Delft Peanut Oil, which is the very highest grade obtainable. After this selected oil is carefully filtered, it is put in tanks which are erected in large store-rooms where the temperature is always the same. The absolute cleanliness of the whole process, from start to finish, insures the purity of the oil, for the nuts are not touched by hand after the shells are removed. The oil is, of course, pressed out by the cold process which insures perfect sweetness.

Worthy of Consideration

It means something to claim that you give a better value than can be found elsewhere for the same money. Yet we know that in our line of mens furnishings are values which can not be equalled elsewhere for the same money. We will be glad to cite you that we do what we claim. This season we are especially able to give you this advantage. Our line of shirts, made not only to sell, but to fit, are such values, also many exclusive patterns and materials. Our neckwear represents the most robbly design direct from the style shop. In fact our complete line is an extra value one. If you are particular that such advantages are yours, give us a trial.

TO PREVENT MOUTH DISEASE

Cleanliness is of the First Importance in Any Effort in This Direction.

The prevention of mouth diseases is the goal toward which all should strive, and cleanliness of the mouth is of the first importance in any effort in this direction. While cleanliness will not entirely prevent decay of the teeth, there is one thing of which we may be sure—the cleaner the mouth, other things being equal, the less liable will the teeth be to decay. Another potent factor in tooth decay is the lack of exercise given the teeth in mastication. Good vigorous use helps to keep them clean and adds appreciably to their immunity to decay. It must not be understood, however, that decay can be entirely prevented. Unfortunately this cannot be done even with the help of the dentist, whose services should be sought at frequent intervals in the interest of prevention. Decay in its beginnings, can be easily arrested without in the least impairing the usefulness of the teeth. Early treatment is also less painful and less expensive, a prime argument in its favor.

The prevention of pyorrhea alveolaris is more certain than is that of decay. Its causes are many, among them being wedging of food between the teeth, tartar, general uncleanness of the mouth, lack of exercise of teeth and gums; in fact, any irritation at the gum margins. Its progress is slow and in the beginning it is easily cured. Cleanliness and vigorous exercise of the teeth and gums is of the first importance in its prevention.

The chronic abscesses above described could be entirely prevented if decay of the teeth were checked in its beginning, a further argument in favor of early treatment when prevention fails. A living tooth will never abscess. Only "dead teeth ulcerate." To sum up then, three things are important in the prevention of dental diseases:

- 1st. Cleanliness of the mouth and teeth. As careful instructions to this end will be given by other writers in this journal, they will be omitted here.
- 2d. Vigorous use of the teeth and gums. Eat slowly. Chew your food thoroughly; your stomach has no teeth. By so doing not only will the health of the mouth be improved but also digestion and nutrition.
- 3d. Frequent visits to the family dentist. In spite of personal care, dental diseases will occur. See to it that their earliest beginnings are discovered and checked. An ounce of prevention will be found to be of more value than the proverbial pound of cure, and less expensive.

BLEEDING OF THE GUMS

Condition That Shows the Presence of Disease and That Dentist's Treatment is Needed.

Bleeding or soreness of the gums shows that they are diseased, and will in time get in such a condition that the roots of the teeth will loosen in their sockets. The dentist's treatment is needed. Afterwards, little by little, brush harder and harder, increasing the stiffness of your brushes at each new one you buy. Conditions such as just mentioned would have been prevented if the brushing had always been done so as to quicken the flow of blood in the gums.

If everyone had plenty of active exercise in the open air from childhood, always went to sleep and rose early, always chewed strongly on hard, coarse food which rubs both the teeth and the gums, in other words, if nature's plan was always and better followed, all these directions for the care of the teeth would be needed somewhat less. On the other hand, the soft, pasty character of most of our present day food makes it stick to the teeth, without having given the gums any rubbing. Increasing the necessity for thorough and careful, intelligent brushing of both gums and teeth.

The position, the work and the looks of our second teeth, which begin coming at the age of five, greatly depend on a child's teeth being kept in good condition. Mothers should often and carefully notice from the age of five on, whether any new large teeth are coming out behind those already in the child's mouth, farther back, both above and below. Those teeth belong to the second set. They are the most important we have in the head, and they should be kept through life.

Between the ages of 6 and 12 months, as often as possible, and especially at bed time, rub the baby's teeth with cotton wrapped on a small thin stick charged with a magnesia preparation of the kind above mentioned. From one to two years, use in a child's mouth a double end brush like shown above, making sure to reach all parts of the teeth, charging the brush often with a magnesia solution, always at bed time, and often after meals. Lacking one of these brushes make up for the two ends by using a mullage brush for one, and cutting a brush as above explained for the other, or use an exceedingly small brush. When a child is two years old the mouth should be cared for and cleansed just as above explained, and this should then be continued on through life.

When one is sick, or only ailing, the danger from germs in the mouth is still stronger than in good health, so that the necessity for cleansing the mouth thoroughly and oftener becomes greater.

**JUDGE BEEMAN IMPOSES
TEN DOLLAR FINE ON WIFE**
Sterling, Ill., March 19.—Married men of Sterling are looking admiringly on Judge Irvin Beeman, a police magistrate. He fined his wife \$25 for contempt of court, and told a bailiff to lock her up if she did not pay the fine within an hour. She paid.

While Mrs. Beeman was awaiting for the judge to accompany her shopping yesterday, William Lawson was ordered locked up because he could not pay a fine of \$10.

"That's an outrage," declared Mrs. Beeman, aloud.
"Silence," shouted the judge. She refused to be silenced, however, and the fineing followed. The fine was paid with her personal check.

INCREASE WEIGHT QUICKLY.

Simple Way for the Thin and Pale to Be Plump and Rosy.

Samose can hardly be termed a medicine, it is in reality a flesh forming food. Taken before or after meals, it mingles with the food you eat, enables it to assimilate and readily digest, so as to make rich blood and pleasing plumpness.

After Samose has been used a week or ten days a noticeable gain in weight is seen. The sallow complexion will become rosy, the sunken cheeks will have a ruddy glow, the eyes will be bright, the breath sweet and the step elastic.

Coover & Shreve's customers have told them of the remarkable results following the use of Samose, the great flesh forming food, and they are so thoroughly convinced of its reliability that they are selling it under their personal guarantee to refund the money if it does not do all that is claimed for it. You who are thin and in poor health can not afford to let another day pass without getting a 50c box of Samose on those terms.

BLUFFS WOMAN TAKES OWN LIFE

Miss Edith Arundel Commits Suicide by Hanging Herself to Rafter in Wood Shed.

Early Tuesday morning the people of Bluffs were shocked by learning that Miss Edith Arundel had committed suicide, it being her fourth attempt to end her life, which was made unendurable by ill health and troubles of various kinds.

Miss Arundel was well known in this city, where she had been more or less for a number of years and she always bore an excellent reputation in all respects.

She was residing with her parents and some time between 5 and 6, she quietly arose and without dressing, slipped out to the woodshed, tied a rope about her neck, climbed to the top of a pile of wood and jumped to her death.

Her mother, Mrs. J. Edward Arundel, found the body at 7:10 and her brother, Squire Arundel, with the assistance of a neighbor took down the body and carried it into the house and summoned a physician but it was of no avail, as life was gone.

The family summoned Coroner Coultas of Scott county and that official drove over from Winchester to hold an inquest and reached Bluffs about noon.

Miss Arundel was employed last year at the State School for the Deaf in this city, but falling health and the need of her services at home caused her to ask for a leave of absence last spring. Her duties at the school were to take charge of the older girls when they were not in class and she was held in the highest regard and her unfortunate act caused deep regret at the institution here.

Last December she went to Passavant hospital, suffering from nervousness, where she remained six weeks, when she returned home.

She was married some years ago to a Mr. Lafferty of New Mexico, but had been divorced and had assumed her maiden name. She had been in rather poor health for a number of years and it was believed that she had some secret trouble which preyed on her mind.

She is survived by her parents, Mr. and Mrs. J. Edward Arundel and two brothers, Squire and Walter. She is about 35 years of age.

Coroner Coultas summoned a jury consisting of E. L. Kendall, foreman; Victor Knoepel, Samuel Haplin, J. C. Lewis, L. S. Black and J. E. Kory. The jury heard the testimony as narrated and rendered a verdict of death by strangulation with suicidal intent.

The funeral will take place Thursday at 2 p. m., Rev. A. J. Green of Bluffs officiating and interment will be in Bluffs cemetery.

The first part of the evening was given over to a business session and then a discussion followed on "Japan." The class has a membership of fifty and there were thirty present. Part of the time was spent in a social manner and dainty refreshments were served. Miss Crain being assisted by Misses Nellie Anderson, Nellie Self and Della Dimmitt.

DEATHS AND FUNERALS

Potter.
Word has been received in the city of the death of Thomas Potter, who passed away Monday night at his home in Stillwater, Okla., aged 57 years. He was born in Lynneville and resided there until he became of age when he went to Kansas and later moved to Marshall, Mo. For a number of years, however, he has resided at Stillwater. He was a most successful farmer but the past three years had been living a retired life. He was a man held in high esteem and of much influence in his community. He is survived by a widow and nine children.

Charles W. Potter of Jacksonville is a brother of the deceased and he has gone to Marshall, Mo., to attend the funeral services, which will take place there today.

WITH THE SICK

Mrs. Block, who fell recently and broke her hip is getting along very well.

The little child of Mr. and Mrs. Ray Mawson, south of the city, is recovering from a recent illness.

Miss Ada Slaughter, who is at the St. Augustine hospital in Chicago, morning. She is doing as well as could be expected.

Mrs. Margaret Mutch, of Harding avenue, who has been seriously ill, is recovering in a satisfactory manner, which will be gratifying news to her many friends.

Frank Correa who has been ill for the past few days, has recovered.

Miss Margaret Burns is very ill at her home near Woodson.

J. T. Osborne is detained from his duties at Phelps and Osborne's store on account of illness.

Grover Flynn of Ward's book bindery is quiet ill at the home of his aunt Miss George Samples on North West street.

John B. Kingsley who is ill at Our Sisters hospital is in quite a serious condition and shows little improvement.

BANQUET FOR BOYS

Grace Church Brotherhood Honors Junior Members of Congregation —Rev. J. W. Miller Gives Address.

The Brotherhood of Grace M. E. church held a banquet Tuesday night at the church in honor of the boys. The supper was served in the basement of the church and there were over sixty boys present. The tables were decorated and lighted with candles and every other plate was reserved for a boy. The chicken supper was served by the church circle of Mrs. Fred H. Rowe and was greatly relished.

President Hopper acted as chairman of the evening and Miss Sue Fox gave two readings, "Experiences in a Shoe Store" and "Billy Miller," both of which were well given and received.

Rev. J. W. Miller gave the principal address. His discourse was along the line of a boy being raw material and what possibilities lay before them. He traced the various transformations of a piece of iron from the crude stage when it comes out of the ground, to the delicate main spring found in a watch. He also told of the mighty oak tree, which traversed the lands and sea and finally Mr. Stradivarius made from its composition the famous violin, an instrument so much coveted by musicians. But above all of these Dr. Miller showed of how much greater development the boy was capable of and that everyone should use all their influence to bring into the young people's minds those things which make up the high ideals of life and accomplishments. All present were greatly benefited by the excellent address of the pastor.

SOCIAL EVENTS.

Miss Georgia Melton entertained the members of the Loyal Wreath Sunday school class of Central Christian church Tuesday evening at her home on West Morgan street, the affair being in the nature of a miscellaneous shower in honor of Miss Ruth Smith, who is soon to wed Mr. Swain Marshall of Albion, Ill. The time was spent in a delightful social manner with various games and contests. Miss Smith was the recipient of a number of handsome presents. The guests included Misses Ruth Smith, Hazel Bryson, Flossie Proctor, Grace Gibson, Lee Turley, Florence Bourn, Ila Harshaw, Rose Conley, Grace Turley, Mabel Bourn, Irene Smith, Ethel Strunp and Georgia Melton.

The Mission Study Circle of the Congregational church met Tuesday night at the home of Mr. and Mrs. W. T. Wilson on West State street. The subject was "The Country Church" and was ably presented in an original paper by R. P. Joy. Mr. Joy dealt at considerable length with the country life, the country church and also the future of the community church, his remarks being practical and interesting. Mrs. L. S. Doane also read a splendid article on "Country Conditions in Illinois." A social hour followed and elegant refreshments were served.

Mrs. William R. Routt was hostess at a delightful function Tuesday morning at Colonial Inn in honor of Mrs. William Lorimer and daughters of Chicago, who were here to take part in the St. Patrick's Day program given Monday night at the Grand Opera house.

At 10 o'clock an elegant breakfast, consisting of seven courses was served to thirty ladies present. The decorations at the Inn were most elaborate and attractive. In the parlor the prevailing color was yellow, in the library green and in the hall red. The dining room was decorated in pink, carnations, roses and smilax being used with pretty effect. The Vickery & Merrigan orchestra furnished music during the hours and the appointments in every way were most pleasing.

Those present were Mrs. William R. Routt, Mrs. William Lorimer, Mrs. James Mooney, Misses Lorene, Marjorie, Helen, Lelore and Leoretta Lorimer, Mrs. Blackburn, Mrs. Alexander, Mrs. McBride, Mrs. Becker, Mrs. Quigley, Mrs. T. Walsh, Mrs. Kennedy, Mrs. Killian, Mrs. Deatherage, Mrs. John R. Vickery, Mrs. Armstrong, Mrs. Mason, Mrs. Fred Degen, Mrs. Great, Mrs. Chas. Degen, Mrs. W. W. S. Ehrie, Mrs. George, Mrs. McCarthy, Mrs. Crowe, Mrs. Rainey, Mrs. Sweeney, Mrs. Walsh and Mrs. Howard.

Miss Lillian Haysbill recently entertained at a sewing at her home on Westminster street in honor of Miss Coral Furr, who is soon to be married to Mr. Leavitt Clark. The guests were limited to a few of Miss Furr's most intimate friends.

Miss Irene Thompson will give a sewing this afternoon at her home on West College avenue in honor of Miss Coral Furr.

Mrs. F. G. Farrell will entertain a small company Friday afternoon in honor of Miss Mary Masters. On Saturday afternoon Miss Helen Phelps will entertain at cards in honor of Miss Masters.

CARRIAGE AND AUTOMOBILE PAINTING

Helenthal & German Are Conducting First Class Establishment.

At the well known stand, 112 W. College street just west of south Main street, a new firm has taken charge and is a candidate for public favor. The members are Walter G. Helenthal and Fred W. German and both are strictly first class workmen and are ready for all kinds of carriage and automobile painting and trimming.

Mr. Helenthal is a son of M. Helenthal so well and favorably known in this city and has had many years experience; five years as formen for Puting & Son, Springfield, next for a large establishment in Des Moines, Iowa. Mr. German worked five years for Hall Brothers and later in St. Louis and both are thoroughly competent workmen. They use only the best of material, have excellent taste in selection of colors and propose to do work which will make them friends. Several jobs now under way at their establishment speak well for their ability. All orders given them will have prompt attention. Ill. phone 112.

Don't fail to attend Blackburn Floreth Co.'s millinery display to day.

FEATURE OF RACE.

ELECTION ORDINANCE

Council getting Ready To Vote On Railway Franchise April 16th.
The city council held a meeting yesterday morning with all members present except Mr. Brown at which the ordinance calling an election to vote upon the granting of the Street Railway franchise was given the first reading. The ordinance provides that the election shall be held April 16th the same date on which an election is to be held in the third and fourth wards for members of the Board of Education.

Another meeting will be held this morning when the Street Railway ordinance will be given the second reading.

When you buy the boy's Easter suit get a watch, too, at Tomlinson's.

SPECIAL MEETINGS AT BLUFFS.
Rev. Frederick Baylis is assisting in the special meetings at the Methodist Protestant church in Bluffs and is adding a great deal to the interest of the meetings. The Bluffs Times in speaking of his work there, said, recently:

"The Methodist Protestant congregation is finding out that they made no mistake in securing the services of Rev. F. J. Baylis in their evangelistic campaign. Without factitious methods, severe criticism of the Christians or any other of the numerous faults of many men engaged in evangelistic work, he presents the story of the cross, night after night in a sympathetic, earnest, impressive manner. His illustrations gleaned from incidents of his travels, his personal experience and broad reading clinch the points of truth as they are driven into the memory of his hearers. The realistic conception that Jesus' blood is for the healing of the nations and the earnest exhortation to his hearers to avail themselves of the joys and peace of the Christian life make his messages appeals of love that ought to touch the hardest heart."

COLLEGE HEADS TO MEET.
Dr. J. R. Harker will go to Chicago tomorrow to attend the sessions of the Northern Central association of Colleges, which will be held at the Auditorium. Dr. Harker is president of the Woman's College association of the Central West and will preside at a conference to be held Friday night at the Blackstone hotel.

Hermans opening to day and evening.

Dr. Philip Gillett Cole is here from New York for a visit with his grandmother Mrs. Edna Gillett at the State School for the Deaf. Dr. Cole has been practicing successfully in the east since he graduated in medicine from Harvard and is now on his way to Montana where he will locate.

Everything that is newest and prettiest and most fascinating in spring millinery will be exhibited at Herman's opening to day.

BRYAN'S BIRTHDAY.
William J. Bryan celebrated his fifty second birthday yesterday. There was no formal celebration but Mr. Bryan received a lot of congratulatory letters and telegrams.

RED MEN INITIATE

Delaware Tribe Gives Work To Seven Candidates—Visitors Present From Edinburg and Pearl.

Seven pale faces were taken last night into the waggon of Delaware tribe and were taught their first lesson in Indian warfare. The work was put on in splendid style by the degree staff of the tribe and the candidates were C. E. Williamson, S. V. Holder, G. E. Hughes, Joseph Manning, Fred Kumle, J. P. Sullivan and Thomas F. Barber. Following the initiation a buffet lunch was served and a smoker was enjoyed.

There were a large number of visitors present, among them being O. L. Whitmer of Springfield, Great Chief of Records. Others were N. P. Rape, O. D. Whitmer, A. W. Rhodoe, J. C. O'Hearren, John Pri-vott, H. L. Richardson, Walter Campbell, Floyd Brown, Arpie Wilsot, Charles Pearson, Homer Davis, M. L. WILL HUNT DUCKS.
Rev. I. S. Akire and Dr. W. P. Duncan of this city, Rev. Royal W. Ennis of Rushville, J. W. Steinbergh and Dow Whiteside of White Hall and A. A. Hurst of Mt. Sterling are planning to spend several days this week hunting on the Illinois river. They will stop at the club's cabin at the head of Meredosla Bay. The most of these gentlemen have been camping together every spring for the last five or six years, and it goes without saying that they have delightful outings and always bring home the ducks. They also contend that they shoot all they bring home and in lieu of any evidence to contrary their friends are led to believe the story. The shooting season has been delayed by the ice and cold but the ducks are beginning to come. More than one Jacksonville hunter has had the fever for several weeks and they will soon be out in pursuit of the favorite sport.

HELD REGULAR MEETING.

STATE STREET BROTHERHOOD

Annual Meeting Held Tuesday Evening in Parlor of Church--T. M. Tomlinson Is Elected President.

The annual meeting of the Brotherhood of State Street Presbyterian church was held Tuesday evening, following an elegant supper, served by the ladies of the church. Plans for the coming year were discussed and officers were elected. J. K. C. Pierson, who has been the efficient president, first made an excellent address, referring to the year closed and expressing his appreciation of the co-operation given him by the members during his term of office.

T. M. Tomlinson was elected president for the ensuing year. He was called upon for a speech and stated that since he had been chosen to head the organization he would do all in his power to make the work count and hoped that the Brotherhood would continue to grow in membership and increase its efficiency. The other officers elected were as follows:

Vice president--William Floreth. Secretary--J. B. Selbert. Treasurer--A. A. Johnson.

Each of these was called upon for remarks and responded appropriately. Rev. H. D. French, the pastor, delivered a splendid address relative to the work of the Brotherhood, giving some excellent suggestions. A number of the members also spoke along the same line. The Brotherhood decided to hold a regular meeting each month.

The past year has been a very successful one for the Brotherhood of State Street church. One of the undertakings which the men have carried through and which has won them distinction as an organized body, is the Sunday evening and afternoon services, which they have conducted. The programs rendered have been attractive and inspiring and it is certain that much good has been accomplished.

A FANCY TRUNK.

The latest in a lady's traveling trunk is an article somewhat longer than the average and so constructed that it cannot be set wrong end up. The trunk is divided into two parts, the long way and one half is fitted with hangers so that quite a wardrobe can be taken without folding any article. The other half is divided in the middle and one half is devoted to shirt waists, which also can be taken without folding and the remainder is divided into three drawers one of which has a moveable partition in the middle. The end of the trunk which should be up is supplied with a rounding top so that it will not stand on end, except the right way and it makes little difference which side is up. The only trouble about the affair is its expense, as it costs rather much at the start and the law permits excess baggage charge on account of the size, but it is a wonderfully fine arrangement for a lady of means who wants to travel with a well kept wardrobe.

FROST LEAVING THE GROUND.

Several gentlemen remarked yesterday that in places exposed to the sun the frost was practically out of the ground. From present appearances it would seem that we may get along without bottomless roads this spring, though just now the highways are in a deplorable condition. Draining is especially in order and should be done wherever practicable.

CHOLERA SCARE.

Much anxiety has been felt lately over the danger of introducing the dreaded Asiatic Cholera into this country, because of the immigration from the plague districts of Europe. It says the strength of the body so fast that death often follows in a few hours. All forms of diarrhoea and dysentery are very weakening.

A Xalostla, Gal., woman, Mrs. C. H. King tells how she regained her strength. She says "An attack of dysentery left me so weak and exhausted that it seemed impossible to regain my strength. But since using one bottle of Vinol I am perfectly well again. Vinol will do wonders for anyone who needs new strength and more flesh."

There is no doubt at all that this delicious cod liver and iron remedy without oil possesses wonderful power to renew flagging strength and vitality, and build up the body. If you are not as strong as you ought to be you need Vinol, and we guarantee that it will build you up and make you strong. Lee P. Allcott, druggist Jacksonville, Illinois and other druggists.

THE UNEMPLOYED.

Lone Oak, Ill., March 18, 1912.

We read in the Jacksonville papers and they are reliable, that Jacksonville is being overrun by unemployed men, men who are hunting honest labor. We call them hobos, tramps and anarchists, anything except honest citizens. We read in the Chicago papers that there are one hundred thousand idle men in that city. We read in St. Louis papers that there is countless numbers of men within their gates who are out of work and would be glad to work for a minimum wage, anything that would put bread into the mouths of their children.

We are in correspondence with people on the Pacific coast who inform us that Portland, Ore., San Francisco, Los Angeles and in fact the whole coast is alive with idle men.

What are our people going to do with this problem? Is it worth looking after or will it right itself without interference?

We always imagined that our government affairs were as individual affairs, to be successful and make a business pay a god dividend, or even an ordinary dividend, there must be thrift, economy and good management. If we see a farmer with idle men, useless horses and a general tendency toward shiftlessness we say that man will not be able to keep up much longer; his idle men will soon eat him out of house and home; for when a man is idle he eats as much as when he works.

Some people will tell you that this horde of idle men would not work if offered good jobs with big pay.

"Don't you believe all of that, for about ninety per cent of them would be glad to work for fair wages and there could be laws legislated that would soon induce the balance to put their hands to something useful."

Some people say that only part of the human family will be saved. The Primitive Baptists say the elect are the only lucky ones. The Campbellites say, those who are baptized by immersion are the only ones who will be able to pass the pearly gates.

Some pin their faith to the Methodist principles and feel sure of a front seat. And so it goes all along the line, showing the different minds of our people who get all their knowledge from the same source, and this source says that "whomsoever will may be saved." Then a plain contract is stated in such plain language that no one need be mistaken, they can comply with the contract or suffer the consequences.

Now if our government is being run on Christian principles, which we believe is the intention of our statesmen who are at the head of affairs, they should give every man a fair chance to earn a living by the sweat of his face, and if he refuses to embrace this fair opportunity, then turn him over to the mercy of the law.

We have been told that the labor of a commonwealth is its true wealth. If this is so how much longer can our people stand the loss of those idle men? We will admit that we are a very rich nation, but fail to see the propriety of squandering the labor of a million of able bodied men year after year. We do not believe this problem will right itself; there must be a system that will give the laboring man a fair chance to get his own. People will tell you that our government is the best in the world for the poor man. The assertion is good, as far as it goes, but only goes as far as our foreign population is concerned; there is no doubt of our kindness to our down-trodden brothers, of foreign birth, but it seems to us that our dear old Sam, in playing the good Samaritan act, is taking the wind and all out of his own children's mouths to strengthen the stranger who went down to Jericho. Just wait a few months and you will hear our politicians telling the idle men what friends they are to the poor man and what laws they are going to enact for his benefit, if he will only vote with the party that is shedding bitter tears over the destitute condition of the poor laboring man. We notice that the only ones who put on any fat, from these promises, are the ones who make them.

Say is it not about time to put a stop to this hypocritical cant and get down to honest business?

Our country is rich and fully able to take care of its people. We can raise enough every year that all may be well fed and then some more; no one need go hungry if our affairs are rightly managed. We believe every man should be given a fair chance for a living. We also believe that a man who refuses to take this opportunity should be compelled, by the law, to labor for his keep. This tramping habit must be eliminated or the equilibrium of our society will be lost.

If the government will take this problem in hand it can be settled very easy and the solving will add millions of dollars of wealth to our country. The more wealth we have the more able we will be to pay taxes. How? By legislating a hard road system all over the land. By putting our honest labor to a good cause and compelling our shiftless life population to contribute something to the land that feeds them.

Every foot of hard road made, in this way, will be a permanent benefit and a source of wealth to the people of our land. In doing this we will not only save the great waste of labor that is going on now, but a big lot of trouble that is brewing for our country on account of an army of unemployed men.

D. K. McCarty.

HUGH CORK TO BE SPEAKER.

Rev. Hugh Cork, Secretary of the Illinois Sunday-school association, has been secured as one of the speakers for the Morgan county Sunday-school convention, which is to be held at Litterberry August 29 and 30.

Let everybody turn out and attend Herman's Grand Opening to day. Music all day and evening.

As "Ed" Howe Sees Life

No liar believes his lies Why should he tell them?

Don't play another man's game when you are expected to be it.

A man who has worked his way up from office boy to the head of a big concern is a real Work of Art a greater genius than the author of a noted book. Such a man has met and mastered more serious situations than he has hairs in his head.

A woman were mourning only two weeks, and some of the neighbors protested. "Well," she said "I didn't have as much to mourn about as some; Bill wasn't much."

Before a thief gets around to the "big haul" that will make him rich, he lands in jail, and loses his chance.

The man who is a "problem" should work it himself.

Were bill collectors not restrained by a rule that they must not "talk back" they could say meaner things than any other class of people.

In doing nothing, you take up the time of busy people.

Every man occasionally thinks he has made a discovery as important as that of Columbus.

Some people are always looking for an outrage to scream about.

REVIVAL AT BETHEL.

A. M. E. CHURCH.

Rev. Mr. Shaw, pastor of the Bethel A. M. E. church has secured the services of Mrs. Evans, a well known and successful worker in evangelistic services and she began Sunday night and Monday night spoke again with great acceptance. She is an educated, cultivated lady, without sensation of unusual degrees but gives the plain truth as it is found in the way of salvation and already fruits of her work are appearing.

Sunday was quarterly meeting day and presiding Elder Simons was in the pulpit. The special meetings were well attended and a spirit of deep interest was manifested. The outlook for Bethel seems to be good.

"The Man Who Can be Elected Governor"

J. McCAN DAVIS of Springfield, Ill.

A STATEMENT BY J. McCAN DAVIS.

I oppose the Third Term for Governor of Illinois.

No man ought to be Governor of Illinois for three consecutive terms.

Such has been the unwritten law in Illinois for almost a century. It is a law which until now, in the whole history of the State, no man has sought to violate.

The Governorship was originally a one-term office—not by the unwritten but by the written law. Prior to 1870, the Constitution barred self-succession in the office of Governor.

The people believed that when they came to elect a Governor—the most important office within their gift—they should have a free and untrammelled choice; that the prestige and power of the man in office should not be used to prolong his tenure of office.

And they wrote it in their Constitution. It was plain common sense. But if it was a good law fifty years ago it is a hundred-fold better now.

For an amazing change has come in a half-century. From a few clerks in a modest little state house, the patronage of the Governor has grown until his appointees (directly and indirectly) now are numbered by the thousands. He controls a vast political organization, composed of the most expert wire-pullers and manipulators that lucrative offices will command—all maintained at public expense.

In twenty years the State Machine has grown enormously. In the view of many who are part of it, the machine is inviolable. It has proved its power repeatedly; it proved it conclusively in 1908, when it forced the renomination of the incumbent of the office.

The same power—the same machine—the same "Invincible Organization"—now seeks to overthrow the precedent of a hundred years, to thwart the unwritten law which heretofore no man has dared defy, to nominate and elect the present Governor for the third time, and thus to perpetuate the State Machine in its existence and its autocratic power.

There is no personal feeling in this statement. I am not condemning personally the men who hold the offices. I denounce the System—a System sufficiently powerful, unless met by extraordinary opposition, to defeat the real will of the people.

Abolish the Third Term in the Governor's office—that is the only remedy now at hand for a state of things both dangerous and intolerable. The remedy lies in the hands of the voters.

I am not a chronic critic of the Machine. I believe in party organization, but not in a personal machine designed to perpetuate an individual in an office of great prestige and power.

That is one great issue of this campaign.

There is another issue—one that must be come of even greater magnitude unless the people effect a change of conditions.

I refer to the extravagant use of money to secure a nomination for Governor. It is alleged—and though specific proof is not available, abundant circumstances support the assertion—that in this primary campaign one candidate for Governor has at his command \$100,000, another \$200,000, another \$350,000.

Where does this money come from?

I do not pretend to know. I do not pretend to say from what particular "interests" it comes. But it comes from somewhere; it does not come from empty pockets; it does not grow on bushes. And rest assured that back of a \$300,000 campaign fund there is somebody who is interested in seeing a Particular Man made Governor of the State.

The Big Campaign Fund is a public danger. It is more dangerous than the jackpot, for it is beyond the reach of the law.

As a candidate for Governor, I can claim neither a Machine nor a Big Campaign Fund. I appeal to the people, to their deliberate judgment, to their good sense. I am making no promises to move mountains—only to give the people a fair, honest, decent administration of the office of Governor.

HOME EVIDENCE FOR DOCTORS

Another Jacksonville Man Writes Letter Telling How He Was Relieved By United Doctors' Treatment.

The fact the new system of medicine used by the United Doctors who have their institute on the second floor of the Farrell Bank building, will cure many old chronic and nervous diseases that could not even be helped by ordinary doctors and medicines, is being proven right here in Jacksonville every day.

The United Doctors' system of medicine unites the good of allopathy, eclectic and homeopathy and leaves out the bad. They use systems of medicines and thus have a suitable remedy for each disease.

A case which illustrates the great superiority of the United Doctors' treatment is that of Henry Barton of 913 South Clay Avenue. He writes of his case as follows:

"For five years I have been in poor health and vainly seeking relief. Nearly a dozen local physicians were consulted as to my condition but in nearly every instance a different ailment was the result of their diagnosis and at no time did I gain anything but the merest temporary relief."

"In one attack more acute than the others, I was told I had a clear case of appendicitis, while others claimed my trouble was neuritis of the stomach, indigestion, catarrh, etc. Besides all this I tried various patent medicines and home remedies recommended by interested friends, but my disease was not changed and I continued to grow worse until I had difficulty in keeping up to do my work and was on the verge of a total collapse when I heard of the United Doctors and their successful treatment and consulted them."

"After an examination I was told my trouble was not any of the things for which I had been treated heretofore, but liver trouble, and that I could be cured. I immediately began treatment. That was one month ago to day and at this time I am better than I have been in four years. Before taking the United Doctors' treatment I was extremely nervous, short of breath, and had a tired, depressed feeling constantly. To day I am entirely free of these things and feel like a new man. I can recommend the United Doctors."

"In larger cities where the United Doctors have older established institutes their great work is well known, but in Jacksonville where their work is new to the people, such wonderful cures of diseases that were pronounced hopeless by ordinary doctors is causing much comment among the physicians and is one of the chief topics of conversation among those who know the patients and have seen the cures."

Any sick person is safe in going to the United Doctors. The examination is free but no incurable cases will be accepted for treatment.

These specialists treat curable cases of all chronic disease of the Nervous, Blood, Skin, Heart, Liver, Stomach, Kidneys, Rheumatism, Paralysis, Neuritis, Loss of Nerve Force, Constipation, Gout, Catarrh, Eczema, Indigestion, Dyspepsia, Weak Back, Bloating, Dropsy, Blood Poison, Eczema, Scrofula, Disease of Women and Diseases of Men.

The United Doctors Jacksonville offices on the second floor of the Farrell Bank Building is open only on each alternate Friday and Saturday. The next date on which it will be open is Friday and Saturday, March 22nd and 23rd.

FOR AGED PEOPLE.

Old Folks Should Be Careful in Their Selection of Regulative Medicine.

We have a safe dependable, and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation of other bowel disorders. We are so certain that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that it shall cost the user nothing if it fails to substantiate our claims. The remedy is called Rexall Orderlies.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. The have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming the weakness, and aiding to restore the bowels to more vigorous and healthy activity. Three sizes, 10c, 25c, and 50c. Sold only at our store—The Rexall Store, Lee P. Alcott, East Side Square

Clean bathroom tub, pipes, and sink with GOLD DUST

To keep bath tub and lavatory snow white—to keep metal pipes, fixtures and taps brightly burnished—to purify metal bowl—there's nothing on earth like Gold Dust. Gold Dust is the great sanitary cleanser, because it sterilizes while it cleans, and drives out every germ and hidden impurity.

Other products may clean the surface—Gold Dust cleanses to the bottom.

Add a heaping teaspoonful of Gold Dust to a pail of water and you are ready to prove these claims.

Gold Dust is sold in 5¢ size and large packages. The large package means greater economy.

Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

INTEREST IN THE PUBLIC HEALTH

Epidemic Sometimes Necessary to Awaken Interest—Dr. Ravenel's Lecture Thursday Night.

Communal manslaughter is a common crime. The guilt of our cities and communities differs only in degree. It is the tax-rate versus the death-rate, and the dollar wins. The opposition of the few who object to the cost or inconvenience prevails over the many who approve, but who are indifferent, silent and inert. Health officials lacking funds and public support, naturally seek the line of least resistance, and the communal manslaughter goes on.

A number of American towns and cities have made splendid progress in sanitary reform, but there are still many communities, large and small, which are so ill-fated to the need of communal cleanliness and the saving of life as to be satisfied to exist under the most insanitary and unhealthy conditions.

Their most intelligent and public-spirited citizens will pass daily through dirty, refuse-strewn streets and by foul pools of stagnant water, and see alleys, vacant lots—and often private premises—reeking with garbage and filth, without a murmur at proof on behalf of themselves or the community.

They will drink water from springs, wells, streams and reservoirs which are exposed to surface and underground drainage from barnyards, cesspools and exposed vaults; they will eat uninspected food and see their meats and other food exposed by dealers to disease-carrying flies—and with all these things be content.

And there are towns and small cities, some of them of nearly 50,000 population, which will not even maintain a health department with a competent health officer in charge, unless he will accept a nominal salary and earn his living by the private practice of medicine. As a rule, it takes an epidemic, bordering on a calamity, to induce such communities to cease their criminal negligence and to take effective measures to guard the public health.

The reader may agree to these facts, but he may feel that as a matter of course, they do not apply to his town. Be sure about it. There are very few, if any, cities or towns that are free from criticism upon this score.

You and your friends are invited to the auditorium at the high school at 8 o'clock Thursday evening, March 21, to a lecture by Dr. Marzkye P. Ravenel, of the University of Wisconsin, on Public Health and Hygiene. He will deal with these questions in a clear and intelligent manner.

This is in the interest of the public health, and is under the auspices of the Morgan County Medical Society with the co-operation of the Woman's club and the Business Men's association.

Hon. Andrew Russell will preside and the lecturer will be followed by five minute discussions by Judge O. P. Thompson, Mayor Davis, Dr. C. H. Rammekamp, Very Rev. Dean Crowe, Dr. J. R. Harker and Prof. W. A. Parr. Several musical selections will be furnished by the orchestra from the School for the Blind.

You are urged to come and bring your friends.

CRACKER'S BEND.

Mrs. Mattie Farmer and daughter Florence went down to Concord last week to try a few weeks of life with the aristocracy of that city.

Mr. Bourne, who bought the Claud Turley farm, had the misfortune to burn down his smoke-house while smoking meat last Saturday.

Len Glinder, of the north end, brought Joe Tritsch over to our office Saturday to get his naturalization papers. Joe wants to be a Bender and have full rights and liberties with our people. We fixed him up all right and our people will acknowledge him as a full fledged Bender.

Mr. and Mrs. John H. Boyd, of Waverly, came over Saturday to visit over Sunday with Mrs. Boyd's parents, Mr. and Mrs. Charles Moss.

Grandma Smart is still receiving birthday cards.

Cap. Taylor and Elmer Smith were Jacksonville visitors Saturday.

POINT.

Owing to bad roads, the revival services at Wesley Chapel have been discontinued.

Mr. and Mrs. Charles Gibbs on the mound gave a delightful reception Saturday evening in honor of Mr. and Mrs. Chase Gibbs, who were recently married in Missouri, the home of the bride's parents. An elegant supper was served and the evening was one of keen pleasure.

Miss Lulu Mawson, who is teaching at Jersey college, spent Sunday at her home in this vicinity.

Miss Grace Middleton is still quite ill with la grippe.

Responsibility For Saving the Soil

By CYRIL GEORGE HOPKINS, Professor of Agronomy and Vice Director of the Agricultural Experiment Station, University of Illinois

PROFESSOR HOPKINS has been connected with the University of Illinois and the experiment station since 1894. His education was obtained in the South Dakota Agricultural college, Cornell university and Göttingen, Germany. Professor Hopkins is widely known for his investigations into the methods of corn breeding and investigations in Illinois soils. His articles in magazines and scientific journals have been numerous.

THE American farmer has learned well the ART of agriculture in the hard school of experience, but the SCIENCE of agriculture is almost unknown to him.

To build up land we must apply the same principles as are required to build up a bank account or a stock of goods in the merchant's store. When any essential element of plant food becomes so depleted that it limits the permanent maintenance of the fertility of normal soil. There is no "theory" in this. It rests upon absolutely established facts.

Why should the average yield of corn in the United States be only twenty-five bushels per acre and the average yield in Illinois be only thirty-five bushels when the yield upon the farm food becomes so depleted that it limits the permanent maintenance of the fertility of normal soil. There is no "theory" in this. It rests upon absolutely established facts.

EIGHTY-ONE BUSHELS PER ACRE
Three Year Rotation, Thirty-two Years. Soil Treatment Applied Last Seven Years Only.

Its the yield of the crop, then that element should be applied, and in amounts at least as large as are removed in the crops produced, and as a rule, this is most economically applied in the natural form in systems of permanent soil improvement.

For the normal soils of America there are three substances that must be supplied in order to establish and maintain profitable systems of permanent agriculture. These are phosphorus, limestone and nitrogenous organic matter. These materials are best supplied in the form of fine ground natural rock phosphate, ground natural limestone and clover or other legume crops, which have power to secure nitrogen from the inexhaustible supply in the air, and which must be returned to the soil directly or in manure.

A simple quantitative knowledge of these facts is all that any man needs

THIRTY-SIX BUSHELS PER ACRE.
Continuous Corn Thirty-two Years. No Soil Treatment.

soil under practical, profitable and permanent scientific systems is eighty-seven bushels in grain farming and ninety bushels per acre in live stock farming as a six year average, although the same kind of corn with the same cultivation on the same kind of soil has produced without rotation or plant food only twenty-four bushels per acre as an average of the same six years?

Why is the ten year average yield of wheat in the United States only fourteen bushels and the average yield in Illinois only sixteen bushels when the average yield of the last six years on the university farm is forty bushels per acre under permanent profitable systems of soil improvement, while under equally favorable conditions of culture, rotation, seed and climate the average yield on the untreated land of a southern Illinois experiment field is only eleven bushels per acre?

Use Crisco in Coconut Cake and see why

Crisco makes cake that has never been equaled with the ordinary shortening.

Butter is nearly one-fifth water. Crisco is all shortening.

Use Crisco in making white cake; use exactly as you would butter, only add salt. You will find your cake is finer grained, better flavored, equal to Angel Food in whiteness.

Use Crisco and find out for yourself its better results for all cooking wherever you now use butter or lard; its absolute cleanliness, its health value, its economy. You will see why experienced chefs prefer it—why the leading New York cooking school considers Crisco of the greatest benefit of any food product discovered in recent years.

Sold in 25c packages by all grocers.

THE FLESH MAKER

THIN MEN AND SCRAWNY WOMEN CAN GAIN A POUND OF GOOD SOLID FLESH DAILY

Money Back in Any Case Where Samose Fails to Increase the Weight

WEIGH YOURSELF BEFORE USING.

Weigh yourself before commencing to use Samose, the great flesh forming food. The wonderful sale of this preparation since first introduced in Jacksonville and the remarkable results following its use have made Coover & Shreve such enthusiastic believers in the great value of Samose that they give their personal guarantee to refund the money if Samose will not make thin people fat and restore strength and health to those who use it.

This is a strong guarantee, but they have seen so many of their customers who a few weeks ago looked like walking skeletons become plump and well, solely through the use of Samose, that they feel they cannot say too much to induce people to try it.

This marvelous flesh forming food is assimilated as soon as it is taken into the stomach makes good, rich blood, tones up the weakened system, helps to assimilate the food and makes the user plump, well and rosy.

HOW TO GAIN HEALTHY FLESH.

Coover & Shreve Advise Thin Folks to Use Samose.

While thinness may not be a disease, yet it is in reality a condition that needs attention. Under the nourishing power of Samose healthy, natural flesh will soon be attained.

This remarkable flesh forming food strengthens the system generally and builds up the fleshy tissues so that the good natural plumpness results.

An ounce of flesh is better than a pound of theory. Coover & Shreve believe that the best possible demonstration of the flesh forming powers of Samose is to have it tried by their customers and not to induce them to use it if they offer to pay for the Samose in case it does not give satisfaction. No stronger proof than this can be given of their faith in it. They have seen hundreds who were weak, thin and scrawny, become plump, robust and strong, solely through the use of Samose. Ten days' treatment for 50c.

THIN FOLKS MADE FAT.

Good, healthy flesh can only be gained by the use of the proper food, together with natural action. Nine people out of ten in order to weigh as much as they ought and be perfectly healthy, should use Samose, the great flesh forming food and health restorer. Weigh yourself before commencing to take these little tablets and see how your weight increases from week to week. Large box for 50c.

Samose does not contain a particle of starch or pepsin, nor is it any nauseating preparation, such as is usually recommended to make people fat and which does not build up good healthy tissues. Samose has valuable flesh forming properties, tones up and strengthens the whole system, helps the food that is eaten to be assimilated in a natural manner and absolutely restores health to all organs.

If you are not perfectly satisfied with the result from Samose Coover & Shreve will return your money without quibbling.

PERSIAN BAZAARS

Curious Business Methods of the Oriental Shopkeepers.

HAVE NO GENERAL STORES.

One Merchant Will Sell Only Mustin. Another Nothing but Silk. Another Spices, and So On—Water Is Difficult to Obtain and Is Very Expensive.

One curious thing about the bazaars of Persia, writes Mrs. Mary A. C. Colquhoun in the Los Angeles Times, is the fact that all the shops of one kind are grouped together, and so we speak of the "cloth bazaar," the "hat bazaar," the "shoe bazaar." There are both wholesale and retail shops, but there are no department stores as in America, nor is there such a thing as a general grocery or dry goods store.

One grocer keeps spices only, another tea, coffee, sugar, etc.; one dry goods merchant will sell you muslin, another broadcloth, another silk. There are no large manufacturing factories in Persia.

It is common to have a small factory and a shop together or side by side.

All the metal utensils used in the country are made of either brass or copper. These substances are hammered into shape. A stroll through the bazaar where this work is going on gives one the impression that pandemonium has broken loose.

Different kinds of bread are made in the bazaar. One kind which is especially liked by the people and which can be obtained fresh at almost every hour of the day is called "non-san-gak," literally little stone bread. It is made by pouring the dough on very hot pebbles, which bake it quickly and give it a crisp crust. Of course it is thin, not more than a quarter of an inch in thickness. The sheet is about a foot and a half wide by two and a half long.

Near the bazaar where this bread is baked you will usually find a place where mutton chops are being cooked on skewers over a charcoal fire. Any one desiring a lunch will buy from the baker a sheet of the thin, crisp, freshly baked bread, then a few "kabobs," as the chops are called. Wrapping the chops in the bread, he will proceed on his way, eating his lunch as he goes.

As you walk through the bazaars of Persia to examine or purchase goods, especially if you are a foreigner, you must expect to be jostled, not only by crowds of curious pedestrians, but also by caravans of horses and donkeys and even of vicious camels. You will perhaps have to wait also for the shopkeeper to finish his prayer.

Foreigners usually go to the bazaars not to purchase things, but to see oriental life, and in the bazaars are to be seen many interesting phases of it. When you really wish to buy something you will find the peddler, that supreme nuisance of America, your best friend. He will bring to your door anything that you wish to see and give you all the time that you desire in which to examine it.

You must needs be a baggier to deal with any merchant in Persia, but usually you can make a better bargain in the quiet of your own home than you can make in the bazaar.

Save for one month in the year the bazaars, even in the capital of 500,000 people, are never open at night. During the month when the Persians fast all day it is customary to do some marketing, some business and much visiting at night. Then the food bazaars, tea shops and so forth are open. Pedestrians with huge lanterns of oil paper and people in carriages give an appearance of life and gaiety to the streets which is quite unknown at other times.

Many occupations which in western lands are carried on in shops are in Persia carried on in the open air. This is due partly to the poverty of the people, partly to the warmth of the climate, partly to the fact that the Persian is preeminently a social being and—with the exception of his domestic life, which is lived in great seclusion behind high walls—he likes to be with his fellow men.

The barber, for example, seldom has a shop and never really needs one. At any street corner you are likely to stumble over a man sitting on a ledge of the wall and being shaved or having his hair cut. It is your own opportunity for seeing a man with his hat off, but as you look at his tanned pate you do not regret that your opportunity in this direction are limited.

The only things that are free in Persia are air and sunshine. Water—not only in the cities, but everywhere—is one of the most expensive commodities and one of the most difficult to obtain. The entire water supply of Teheran comes from the snow on the mountains north of the city. It is brought for a distance of many miles in underground watercourses. There are thirty-four such channels which enter the city.

At various places as they pass along there are openings into these. Through these openings the water is dipped up with a leather bucket and poured into a goatskin bag, which is slung over the shoulder of the private servant or the professional water carrier. Nothing is more common in the street than a sight of one of these carriers.

Recreation. He—My dear, you spend too much money in false hair. Look at your puffs. She—And you spend too much in cigars. Look at your puffs—Baltimore American.

There is no happiness like that which comes from doing our level best every day.

THE KITCHEN DRESSER.

It Was Originally a Bench on Which Meat Was Dressed.

Dr. Johnson tells us that the kitchen dresser was a bench in the kitchen on which meat was dressed or prepared for table and gives the following lines in support of his view:

"Tis burnt, and so is all the meat. What does are these? Where is the rascal cook? How durst you, villain, bring it from the dresser. And serve thus to me that love it not?"—Shakespeare.

A maple dresser in her hall she had, On which full many a slender meat she made. —Dryden.

Wright in his "Domestic Manners of the Middle Ages" says: "One of the great objects of ostentation in a rich man's house was his plate, which at dinner time he brought forth and spread on the table in sight of his guests. Afterward to exhibit the plate to more advantage the table was made with shelves or steps, on which the different articles could be arranged in rows, one above another. It was called in French, or Anglo-Norman, a dresser, because on it the different articles were dressed or arranged."

It is this to which the modern poet refers:

The pewter plates on the dresser Caught and reflected the flames as shields of armor the candlelight.

PRESENCE OF MIND.

The Way Two Englishmen Captured Four Hundred Prisoners.

Toward the close of the peninsular war 400 prisoners were captured by John Colborne, afterward Field Marshal Lord Seaton. Colborne, who was wounded at Talavera, had been disabled for some time, but in 1813 he was in active service again, and when Wellington's army crossed the frontier into France he performed what was indeed the most amazing feat of his career.

When riding, with no comrade but the famous Sir Henry Smith, separated from his column, he saw 400 French soldiers passing along a ravine below him. "The only way was to put a good face on the matter," he wrote. "So I went up to them, desiring them to surrender. The officer, thinking, of course, the column was behind me, surrendered his sword, saying theatrically, 'Je rends cette epée, qui a bien fait son devoir.' (I surrender this sword, which has done its duty well.) The 400 followed his example."

Sir Henry Smith used to declare that he had never seen such cool presence of mind as Colborne displayed on this occasion. —London Spectator.

Sanger's White Elephant.

"I was exhibiting the only white elephant ever seen in the western world," relates Lord George Sanger in his book, "Seventy Years a Showman," "when I was honored by a visit from King Edward, then Prince of Wales. After the performance I conducted the prince through the stables and showed him all there was to see. When we came to the 'white elephant' stall his royal highness suddenly turned to me and said, 'Sanger, is this really one of the sacred white elephants?'"

"To this I replied: 'Well, your royal highness, a showman is entitled to practice a little deception on the crowd, but I should never think of deceiving my future king. It is certainly a 'white elephant'—in fact, a very white elephant, but only because we give him a coat of special whitewash twice a day.'"

The Backsterologist.

A Richmond negro, charged to meet on the street a friend who complained of much "misery." Indeed, the afflicted one was in despair, so "tuckered out" was he.

"'Wot seems to be de matter?'" asked the first negro.

"Jim," said the other with a moan and a gesture indicating the portion of his anatomy that was giving him so much trouble, "I's got such awful pains in mah back beah!"

Jim assumed an air of great solemnity and wisdom. "In dat case," said he, "dere's only one thing fo' yo' to do. Jes' go' put yo' self in de hands o' dat Doctab Blank. I hears dat he's de finest backsterologist in de whole souf."—New York Press.

Buddhism.

Buddhism started with Gautama Buddha about 600 years before the Christian era, and it numbers among its adherents more than a third of the human race. Buddhism is confined mainly to Asia—Manchuria, Mongolia, Korea, Tibet, China, Japan and the large islands off the Asiatic coast. Though born in India, Buddhism is not strong in that country today, being driven out by the old Hinduism of which it is the offshoot.

Distraction Needed. "You don't seem to be making much progress in golf." "No," replied Mr. Cumro. "It worries. Do you know I sometimes wish that I was back in business so as to have something to take my mind off the game."—Washington Star.

Rich, but Not Beautiful.

Bacon—She wasn't around when they were giving out good looks, was she? Egbert—No; she was at the other place where they were giving out money.—Yonkers Statesman.

Grain Letter.
Chicago, March 19.—Wheat—Developed strength early on buying by local traders who were influenced by cables. The leading bull interests appeared to help the market along, but their favorite brokers were sellers on advance. News developments were few. Weather conditions were excellent for the new crop. Shipping demand continues poor and there is a small prospect of any material decrease in the local stocks available for May delivery. Speculative trading is being diverted rapidly to July and September. May wheat conditions appear moderately bearish. Unless well supported, lower prices may be expected. With new crop outlook as yet uncertain, discounts for July and September make them attractive to investors on the breaks.

Corn—Commission houses followed up their recent purchases and this with the prospect of colder weather and an extension of the feeding season, caused shorts to cover freely. A number of the recently successful bulls have been very active in helping along the advance. The short interest has been pretty well cleaned up and realizing sales will be extensive on any further advance.

Country offerings have increased slightly on the upturn and a little larger movement is looked for.

Oats—The good buying which started yesterday advance, continued today. Leading local speculators were good buyers of July and September. Some of the May longs were selling and reinstating in July. Weather conditions are such as to further delay farm work and make seedling extremely late. Late seedling will probably lead to a short acreage and will certainly mean a late harvest. Delayed pastures is a result of the extension of winter means a heavy oat consumption, especially as hay is extremely high. Farm stocks are not large and country elevators have but small holdings. There is now every indication that old oats will be practically exhausted before new oats are available. This will mean high prices in July and it is hardly reasonable to suppose that if the old crop finishes at a high price new oats will begin at low level as prevails for September. We believe both July and September are a good investment.

Anna Held's Opinion of An Automobile

Arthur Bunker Motor Car Co
Seattle, Washington.
Gentlemen:

I cannot help but say that the big, luxurious Oakland car that took me so easily and comfortably around your beautiful boulevard is the easiest riding American built car I have seen. Of course, my foreign machines cost me thousands of dollars, but this is the first American built car that I ever thought their equal.

Respectfully yours,
Anna Held.

You will note by Miss Held's letter that she has had experience with foreign built cars which cost her thousands of dollars. You will also note carefully that the Oakland is the first American built car that she ever thought the equal of the high priced foreign made cars. This is one of the best tributes that has ever been paid the Oakland, and, coming as it does from a woman who is in a position to judge of the comparative merits of high priced cars and medium cars, it should carry great weight.

STATE NEWS.

The supervisors of Lee county have changed the name of the poor farm to Lee County Home.

John McClellan of Macomb, a retired business man, recently received \$5 by mail from a woman who had owed him \$3.50 for 33 years.

An eight legged pig with two tails and other queer characteristics was recently farrowed on the farm of Jacob Shively near Shannon.

An epidemic of small postoffice robberies is prevailing in the eastern part of the state.

Judge James T. Hoblit died recently at his home in Lincoln. He was a well known in this city and was a leading attorney of the state at large.

Edwin Hall of Sycamore, a prominent politician, recently committed suicide by hanging himself.

Gypsy Smith has begun a series of meetings in Peoria with wonderful success in every way.

William Rohman of Germantown disappeared about Christmas and a day or two ago his body, badly decomposed, was found in the Illinois river near Pekin.

William Hickman of Moline, Ill., recently visited, at Macomb, his sister, Mrs. Samuel Thomas, whom he had not seen for fifty years. They will live together hereafter.

Hans Johnson, an eccentric man of Galesburg, died recently and a search of his house revealed a large sum of money hidden away in all sorts of places.

George W. Shaw, a prominent attorney of Geneseo, died recently of heart trouble and within a short time his wife and daughter died with pneumonia.

Kankakee is badly inundated, cellars are flooded and there is trouble all around.

On the eve of the day when he expected to be nominated for tax collector, Clarence C. McGhee of Kewanee suddenly passed away.

HOW TO OBTAIN GOVERNMENT PUBLICATIONS.

No doubt most people interested in useful reading matter will thank us for information, obtained through official sources, as to how public documents can be procured with least trouble and at trifling expense. The idea that prevails most generally, that this class of literature may be secured through the courtesy of Members of Congress, is correct only in so slight a degree that it had best be corrected. There are nearly five hundred Senators and Representatives—hence an edition of several thousand copies, if distributed pro rata, gives to each only a few copies. Some of these the Senator or Representative needs for reference, the few left over are soon exhausted, and those constituents who write for them are necessarily disappointed, through no fault of the position, the reader who is interested addressed. Now, as a general proposition, the reader who is interested in a government publication will serve himself best by addressing the official known as the Superintendent of Documents, Government Printing Office, Washington, D. C., who is authorized to have reprinted any government publication for which there is a demand, and sell the same at cost, to all applicants. He will mail the price lists, divided by subjects, free upon application, and remittance can then, as required by law authorizing such sales, accompany order.

REAL ESTATE TRANSFERS.

HELD BUSINESS MEETING.

The Men's Bible Class of Brooklyn M. E. church held its regular business meeting Monday night at the home of Harry Clemens on South Clay avenue. The usual business was transacted and plans were laid for a special meeting in April. A social hour followed and an elegant two course luncheon was served by the host and hostess. The meeting was also in the nature of a farewell for Curtis Schofield, who leaves to day for Brown, Cal. Mr. Schofield has been one of the faithful members of the class and much regret was expressed at his departure.

FUNERAL NOTICE.

The funeral of Mrs. Matthew Minter will be held at 2:30 o'clock Thursday afternoon from the residence on East College avenue, in charge of Rev. P. A. McGee, pastor of Centenary M. E. church. The Rebekahs will also take part in the services. Interment will be in Jacksonville cemetery.

THE WEATHER.

The temperature for Tuesday, according to G. H. Hall of Alexander was: maximum 59 and minimum 36.

END OF "HELLO."

Plan Made to Discontinue Favorite Telephone Salutation.

Elgin, Ill., March 19.—"Hello" as a common salutation in telephonic communication will be discontinued in favor of a more business-like and time-saving phrase if plans of delegates to a conference in Elgin today of chief operators of telephone companies operating throughout northern Illinois are successful.

All the delegates went on record in favor of the abolishment of the time-worn "hello" and giving preference to phrases such as "this is Smith & Co." or "this is 456."

A plea to patrons of the twenty telephone companies represented at the conference to adopt the new style of greeting will be made by circular letters within a few days.

FRIEND OF GRANT DEAD.

Peoria, Ill., March 19.—Louis Marshal Dent, 80 years old, a former personal friend of President Grant, died at the Peoria State hospital at Burtonville today. He was marshal at the United States embassy at Japan for eleven years, having been appointed to the station during Grant's incumbency as president. Marshals were assigned to the legation in Japan at the time because of the Japanese hostility toward foreigners.

DESPONDENT MAN SUICIDES.

Kansas City, Mo., March 19.—Howard H. Puggle, formerly manager of a vaudeville house in Oklahoma City, committed suicide in a hotel here today by taking poison. He had been here several weeks, seeking employment, and was despondent. He left a sealed letter for his father, F. F. Puggle, of Bloomington, Ill.

Puggle was thirty years old.

ARRIVE WITH REMAINS.

Norfolk, Va., March 19.—The cruisers North Carolina and Birmingham with the remains of those heroes of the old battleship Maine, which were recovered by the floating of the wreck, arrived in Hampton Roads today. The remains will be taken to Washington for burial in Arlington National cemetery with appropriate ceremonies.

KILLED HOTEL MAN.

Cairo, Ill., March 19.—P. W. Harlan, who registered at a hotel here as being from Beasley, Neb., killed S. F. George, proprietor of the hotel, last night, it is alleged, by cutting his throat. Harlan is 75 years old. Although Harlan registered from Beasley, there is no such town in Nebraska.

SUN WORSHIPER INDICTED.

Chicago, March 19.—Two indictments were returned against Ottomian Zar Adusht Hanish, leader and founder of the Mandazian Sun worshippers, by a federal grand jury today. One indictment, containing seven counts, charges Hanish with shipping obscene literature from one state to another by express. The second indictment charges he made improper use of the mails by sending advertising matter regarding the alleged obscene books through the mails.

DELEGATES CHOSEN.

Port Huron, Mich., March 19.—Seventh district delegates to Republican National convention, Lincoln Avery and John E. Wallace. Uninstructed.

HARRISBURG, Va., March 19.—

John Paul and R. J. Walker, seventh district delegates to Republican national convention today instructed for Taft.

VICTIM OF BARGAIN RUSH.

Ottumwa, Ia., March 19.—Miss Julia Mason of Libertyville, Ia., is in a local hospital today as the result of a hatpin jab received in one of her eyes during a bargain counter rush at Libertyville yesterday. Physicians say she has lost the sight of the eye.

MAIL POUCH STOLEN.

Peoria, Ill., March 19.—Train No. 26, on the C. R. I. & P. railroad was robbed of a United States mail pouch at Bureau, twenty-five miles from this city, last night. Secret service men today found the bag in a barn near Bureau. Most of the letters had been removed. No clue to the robbers was obtained.

DEAFNESS CURED.

When caused by Catarrh. If you have ringing noises in your ears, catarrh germs are making their way from the nose to the ears through the tubes.

Many cases of deafness caused by catarrh have been cured by breathing HYOMEL. It reaches the inflamed membrane, heals the soreness and banishes catarrh, which is the cause of most deafness.

F. C. Vanaman, railroad conductor of Birmingham, N. Y., writes that he was cured of deafness after specialists had failed.

HYOMEL (pronounce it High-on-el) is guaranteed to cure catarrh, coughs, colds, asthma, croup and sore throat, or money back. Complete outfit with inhaler \$1. Extra bottles 50 cents. Sold by Coover & Shreve, the enterprising pharmacists, and druggists everywhere.

MARKET LETTERS

St. Louis Livestock Market.

National Stock Yards, Ill., March 18.—Cattle receipts 3500. Steers sold 10c lower today under pressure of heavy receipts at all markets. Top \$7.75. Butcher cattle fully steady. With weather conditions decidedly better, look for a fair run but we anticipate a good market to continue. Hog receipts 11,500. Market 10c lower than the best time Saturday morning. Top \$7.05, with bulk of the good hogs at \$6.75 to \$7.00. Outlook favorable.

Sheep receipts 4,000. Market

strong today or with last Monday. Top \$7.40 for Colorado and western lambs. Bulk of the good lambs selling at \$7 to \$7.25; fat ewes, \$5 to \$5.50; wethers, \$2.25 to \$5.65; yearlings, \$5.75 to \$6.50, according to weight and fat.

Kansas City Livestock Market.

Kansas City Stock Yards, March 18.—Unfavorable shipping weather last week again acted as a check on the stocker and feeder business, keeping the receipts down and preventing a free movement to the country. Demand showed some revival from recent dullness and prices made small advances. The fine weather of the last few days has produced an effect for the better in this trade, plainly apparent today. Packers have heretofore bought up everything that carried any flesh, in their quest of light weight killing cattle, with only slight opposition from country buyers. Today outside buyers are riding as hard as the packers after feeders, and prices are firm. Some 913 lb. good red steers sold this morning at \$6.45, other cattle weighing 900 lbs described by the salesman as "pretty good," sold at \$6.35. Another drove of stock steers, around 600 lbs., sold at \$6.50 today. Good weighty feeders would bring close to seven dollars. Middle and low class stock steers sell at \$5 to \$5.75. The total run here today is 6500 cattle, a small supply, when it is considered that for three weeks shipments to market have been hampered more or less by storms. However, some of the shipping territory is still storm bound. Stock cows and heifers bring \$3.75 to \$4.50, and good young feeding bulls sell at \$4.25 to \$4.75. Killing cattle are selling strong today, except heavy steers, which are a shade lower. Buyers have shown a predilection for light weight killing cattle lately, as usual at this season, but that condition will likely be less pronounced this season than usual, because of the small number

of fat animals available, of big weights. Top killing steers here today sold at \$8, fair to good natives \$6.25 to \$7.40, quarantine steers \$5.65 to \$6.75, native cows \$4.25 to \$5.50, fat bulls up to \$5.50, veal calves \$6.50 to \$8.00.

A Cool Soldier.

A French grenadier who was exasperated at some injustice that had been done him by a field marshal pointed his pistol at the marshal and pulled the trigger, but it did not go off. Without moving a muscle the veteran cried, "Four days in the cells for keeping your arms in a bad state!"

He Told Her.

"Why did I ever leave home and mother?" sobbed his wife. "Chiefly because your family was too stingy to take us in," he answered bitterly.—Life.

No Previous Employment.

"You say, Rastus, that you want work for your wife," said Gumbasta eyeing the husky dwarf before him from head to foot. "Was she ever employed before?"

"No, sir," replied the negro nonchalantly; "dis am her first marriage!"—New York Times.

Anna Held's Opinion of an Automobile

Arthur Banker Motor Car Co. Seattle, Washington.

Gentlemen:

I cannot help but say that the big, luxurious Oakland car that took me so easily and comfortably around your beautiful boulevard is the easiest riding American built car I have seen. Of course, my foreign machines cost me thousands of dollars, but this is the first American built car that I ever thought their equal.

Respectfully yours,
Anna Held.

You will note by Miss Held's letter that she has had experience with foreign built cars which cost her thousands of dollars. You will also note carefully that the Oakland is the first American built car that she ever thought the equal of the high priced foreign made cars. This is one of the best tributes that has ever been paid the Oakland, and, coming as it does from a woman who is in a position to judge of the comparative merits of high priced cars and medium cars, it should carry great weight.

WOODMEN WILL ENTER PROTEST

Camp 912 Members Object to Proposed Increase of Insurance Rates—Committee is Appointed.

As mentioned several days since Camp 122, M. W. A., appointed a committee of five to join with representatives from other camps in protesting against the proposed increase of insurance rates. Now Camp 912 has appointed a like committee which includes John N. Joaquin, W. C. Sperry, Frank Muchachans, E. M. Vasconcellos and John M. Vasconcellos. This committee was named after a resolution had been passed by the camp protesting against the new rates in the most decided terms. There are eight or more M. W. A. camps in Morgan county and later on a county convention will no doubt be held when a further united protest against the rates will be made. This is in line with the action taken in other counties and it certainly seems that the opposition to the increase is developing in a widespread sort of way. However, the executive officers of the organization must have anticipated such a feeling in view of the fact of the vast number whose insurance costs will thus be so materially increased.

R. G. Collins, postmaster, Barnegat, N. J., was troubled with a severe lagrippe cough. He says: "I would be completely exhausted after each fit of violent coughing. I bought a bottle of Foley's Kidney and Urinary Pills and before I had taken it all the coughing spells had entirely ceased. It can't be beat." J. A. Obermeyer, City drug store.

WILL INITIATE NINETEEN.
Caritas lodge No. 625, I. O. O. F., will hold an initiation this evening, nineteen candidates to be given the work. Guests from neighboring lodges are expected to be in attendance and after the work little refreshments will be served. The lodge is in a very prosperous condition, and they expect to have another class ready at a subsequent meeting.

QUIT CALOMEL

Thousands Are Turning From This Dangerous Drug.

A Safe Vegetable Substitute Is Olive Tablets for the Liver.
Dr. F. M. Edwards, a prominent physician of Portsmouth, Ohio, has discovered a new laxative and liver toner in a combination of vegetable materials, mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel, except that there are none of the bad after effects of calomel.
Dr. Edwards has long been a foe of calomel, though he recognized its value along with its dangers.
His distrust of the uncertain drug eventually started him years ago towards experiments with the view of discovering a substitute, and he is to day in possession of the long-sought-for combination, which is in the shape of a little sugar-coated, olive-oil colored tablet.
The results of fifteen years' experience and practice are embodied in these marvelous little tablets.
They are called Dr. Edwards' Olive Tablets, and their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as to thousands of others who have suffered and were afraid of calomel.
They are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities.
"Every little Olive Tablet has a movement all its own."
The Olive Tablet company, Columbus, Ohio. Dr. F. M. Edwards.

STATE NEWS.

Gottlieb Wahl, a retired farmer residing in Peoria, committed suicide by hanging himself in an outbuilding.
A number of store thefts have been perpetrated by greasers in the vicinity of Peoria recently and the star says the prison in the city looks like a Mexican barracks.

MEN OF SIXTY SHOULD BE YOUNG

UNITED DOCTORS SAY THAT MOST MEN GROW OLD ENTIRELY TOO SOON.

Under Proper Treatment and Care Faculties and Vigor Can Be Retained Many Years.

Dr. Kinsey who is the physician in charge of the famous United Doctors' Jacksonville Institute, located on the second floor of the Parrell Bank building, gives out a very interesting theory in regard to the cause of the physical decline of old age. The doctor is of the opinion that most men lose their faculties and vigor much sooner than is necessary. He predicts that future generations will be much longer lived on account of a more general knowledge of medicine among physicians of the future.

The United Doctors' system of treatment is based on the proposition that there are three causes for the decline of the faculties and shrinking of the various organs in old age.

First: The stomach, liver and bowels become clogged by over eating or eating improper foods. The result of the clogging is an improper elimination of waste products.
Second: The kidneys become weakened from over indulgence and excesses causing poor elimination of urates, phosphates, etc., and the formation of poisonous acids. The result of poor elimination by the bowels and kidneys is the storing up of a host of waste products in the body.
The third cause of premature old age is the weakening of the nerves due to excesses in living and worry and excitement of our door life.

The usual treatment for the various aches and pains and weaknesses of old age is physics and tonics. The physics weaken the bowels and kidneys still more, and the tonics give a false strength which is simply a borrowing from the future which must be paid back with interest.

The nerves control every organ in the body and if the nerves are weak, the whole body is weak. Thus the secret of good health in old age is to cleanse the system and keep it clean. To build up the nerves and thereby keep up the nerve tension and vitality.

Give us a person sixty or seventy, who has no organic lesion, but who is simply broken down from excesses and wrong living, and by our modern system of treating the cause of the ailment, we will clean and build them up so that they will have the elasticity, strength and vigor of an ordinary person of forty. Building up the nerves puts energy in the muscles, vim and vitality, makes the memory return and thoughts flow through the brain as of old.

One man of seventy-six whom we treated but three months, said: "I wouldn't take five thousand dollars for what you have done for me." And still another: "Doctor, you have turned back the hands of time for me. I feel as well as I did twenty-five years ago. I enjoy work, I enjoy life, I enjoy my home again."

The United Doctors' Jacksonville Institute will be open on Friday and Saturday of this week and again every two weeks on Fridays and Saturdays.
